

# THE CBC ONSHORE NEWS

May 2012

Greetings Casper Boat Club Members:

It is with great pride that I report to you that the lake is FULL and ready for your boats!!

Also, I would like to thank the entertainment committee for a fabulous Commodores party and special thanks to all of those who donated items that were given to the club to auction off. Also, I would like to thank Doug Moore for the cut and wrapped beef again this year. I believe that this is the 8<sup>th</sup> year that he has done this for the club. Thank you Doug!

A very special surprise from Larry Rubis for the bottle of wine for the Commodores table that we auctioned off and the proceeds will go towards fireworks and the champagne toast to all of the past Commodores. We are very grateful and it was a great show of appreciation for the hard work. Thanks Larry!

The backbay dock has been coated with a white, non-stick rubberized material and they look great. I think this is a project that has been needed for years. Everyone should enjoy walking on the docks with no heat on them this summer and your canines will also appreciate it. Thanks to all of the volunteers: Dave Herman, Jason Bullard, Tony Valdez, Tim Cortez, Cheryl Rooney, Paulette and Stan Hahn, Ken and Mary Ann Hoff, the "three Eveready bunnies" John Hatcher, Dave McMahan and Ken Hampton. We are waiting on more product and then we will be doing the aluminum docks at the rest of the club, courtesy docks and aluminum on the point.

We are also installing and training on the new computer system donated by Win Farnsworth Jr. so that we will be able to not have all the tickets stacked up and in order to keep track of drinks and meals. So patience will be needed until this system is up and running (bug free).

**Other News:** Finally, there are two enclosures for your reading and comments. This is about the gas at the club: 91 octane, ethanol free. Gary Stokes has researched this and his letter is enclosed. Also, I found an article in boatingmag.com and I have enclosed it. The Boat Club has and will keep 91 octane ethanol free, as the majority of gas users need this and they spend a lot of money with us. Fuel is \$4.249 now to offset additional transportation costs.

I look forward to seeing you all!

Lynn Burgess, Commodore 2012

## **Entertainment Committee Announces Activities for May**

May 5th: KENTUCKY DERBY- Dress for the occasion - ladies get your hats on! Pick your horses and bet on the winner!

May 11th: ICE BREAKER at the club - Look forward to SEAFOOD and lots of fun - call 472-6922 or go to [casperboatclub.com](http://casperboatclub.com) for reservations

May 12th: LADIES NIGHT - We will be playing Prairie Poker - Silent auction items and door prizes. We will be serving snacks and a drink of the night. Starting at 7:00
