

THE CBC ONSHORE NEWS

June 2012

Greetings Casper Boat Club Members:

There's not a lot of boating going on because of the weather although the ladies night was a hit and they are asking for another one this year. If you did not attend, you may want to think about it next time.

Sonny has started a yoga class on Sunday morning on the front lawn; you may want to check into that.

The electric sliding door has been installed and everyone seems to like it. It was a needed improvement.

Also, sometimes when we fix something (painting the aluminum docks), it creates a new problem. The geese like sitting on the COOL docks and they think it is also is the outhouse. Ken Hampton cleaned up the docks and it took four hours, so we need to find something to keep them off of the dock. Maybe more traffic will help.

The fireworks for the fourth of July will be on a Wednesday this year. Andrew Burgess has ordered a lot of stuff so it will be a great show as usual. A lot of hard work goes into this show way ahead of the 4th so if you see him, please thank him for donating his help and time for this

So, the sun is coming out and so is the boats to we will see you at the lake!

Lynn Burgess, Commodore 2012
