

October 2013

CBC Members:

Well, our 2013 boating season has sadly come to an end. We were blessed with a great summer. The club made some great improvements for our members to use. We put in a Trex deck, railing, new patio furniture, concrete front steps, on-demand water heater, concrete patio and a fire pit. We, also, were able to finish the docks with the final coats of paint. I hope you were able to enjoy these improvements to our club. We will continue with more improvements before next season opens.

I want to thank Sheryll and her wonderful staff for a truly great year. Hope to have them all return next year.

Our plans are to winterize the club the 2nd week-end in October. Please note that as of November 1st, the gates will be locked for the winter season. If you need access through the winter, you may contact a board member.

If you have left your boat/trailer at the club over the winter, please notify Karen at 237-9823.

As a reminder, per Article IV, Section 3 of the Casper Boat Club Constitution and By-laws, **assessments and charges incurred by a member are due by the twentieth (20) of each month.**

My sincere thanks to all!
Dave McMahan
