

The CBC Onshore News

November 2012

Greetings Casper Boat Club Members:

The season of 2012 is over and the club is closed down and put to bed. The water system has been blown out thanks to Ben and sons for their compressor use and all of the help from Ken, Mary Ann, Dave, Ben and Sonya.

Please pay your outstanding fees, the same ones are out 60-90 days. There is talk in the board to turn these accounts over to collections and that would (or could) terminate the membership.

We have thirteen boats utilizing winter storage this year and the electricity will not be turned off so batteries should not freeze as some did last year.

The re-coating has been postponed until spring as the weather was not good when we had planned to do it.

The billing for the 2013 season will be done in early December and these fees must be paid in full by March 1st, 2013. If you will not be renewing your membership for 2013, please contact the office at 237-9823.

Please have a safe winter and support the new board in 2013 as they have a lot on their plate.

Sincerely,

Lynn Burgess, Commodore 2012
