

# *Casper Boat Club Newsletter*

April 2019

Hello Members,

I hope everybody is over the winter. We are opening the Boat Club this week, and it will be open for operation on April 19th. Tim and his crew are coming back, and there are some minor additions in the bar area, one of which is Gruner Brothers Brewery beer on tap. I am sad to report that Josh is not going to be back cooking for us this year as he is working with his instructor from Casper College. He feels his learning opportunities will be increased working with his instructor through the summer. Of course, we wish Josh the best of luck in his pursuit of culinary excellence. He said, if needed, he would be willing to come out and help from time to time and/or after he graduates from school. We hope we see him soon!

Anyone who hasn't paid their membership/dock fees, be advised the docks are in the process of being assigned this week. And, if you have dropped your land line phone number, please provide the bookkeeping office with a current phone number. In calling people on the dock wait list, many member phone numbers we have on file have been disconnected!

The BOR has reprimanded us for having open fires in our containers at the Club. Although the Board does not agree with this, it is in our lease that we can have no open flames. We can only have a valved propane fire pit. The reason is we have too much vegetation. I guess they want us to strip it down like they did at Okie beach. Anyway, just a heads up about this issue. The Board is working to try to get it renegotiated, but as you know, we are working with the government. Your cooperation is appreciated.

It looks like it's going to be a fun and exciting season, and we look forward to seeing everyone at the lake.

Thank you.

Lynn Burgess  
Commodore
